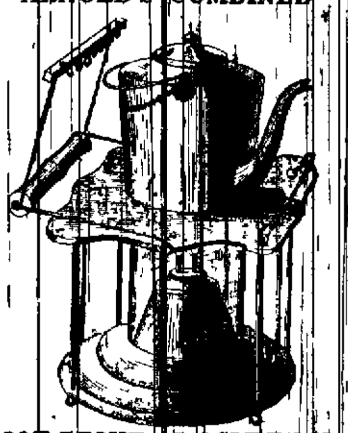
ARNOLD'S COMBINED



FOOT-STOVE, LANTERN,

....AND....

NURSE LAMP.

ALBERT NOYES having purchased the exclusive right for manufacturing and vending in Penobscot county, the above valuable invention is now prepared to offer them to the public.

As a FOOT STOVE it answers an excellent purpose, as it can be sufficiently heated in less than one minute to warm and dry the feet in the coldest winter weather, and will be found to be an indispensable article in traveling. It is heated by an alcohol or fluid lamp, the flame of which is protected from every external object.

As a LANTERN it answers all the usual purposes and is ... to ... or ... and can be used as a house lamp, with equal advantage.

As a NURSE LAMP, and in cases of sickness, it is of great advantage in keeping drinks or medicines warm beside giving the light desired, and for cooking in small quantities. For making tea, &c. it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and a flat iron heat in the same length of time.

In fact, the various purposes to which this neat apparatus can be put may be readily conjectured by every one. No further description is required, as no one can misunderstand its general utility. To say any thing more respecting its adaptability to a hundred purposes would just be telling what our readers can all see at once for themselves.

Hope springs Exulting from its Use, while Doubts fleeing away, give place to Conviction most Triumphant.

BE kind enough, Reader, to give your attention one moment and you will learn what

TO. A. Richards' Abbott Bitters

ARE GOOD FOR

They have been made and sold 40 years—8 years by the present proprietor, and note this great truth—he has facts in his possession shewing that they have cured and helped thousands, yea thousands of cases of

Nervous Debility and Derangement of the Digestive Functions, Depression of Mind and Spirits, Oppression after Eating, Acid Stomach, Sick Headache, Costiveness, Jaundice, Piles, Heartburn, Flatulence, Female Obstructions, Dizziness, Sickness at the Stomach, Water Brash, Loss of Appetite, Pain in the Side, and

Torpor of the Liver and Bowels.

Reader, you are appealed to earnestly. Don't say "if I only could believe this to be true, I have some of the above complaints and I would take the medicine at once if I could fully have confidence." IT IS TRUE—it is an honest truth, if ever there was one spoken. Come then, if your mind is irritable, discontented and gloomy,—if you have severe Colic Pains after eating your food—if your body begins to waste, or your strength to fail you—if your countenance a haggard and sallow aspect—if you have a difficulty in lying on your left side—if your skin is dry and shrivelled—if you have an appetite weak and variable, and perhaps entirely destroyed—if your whole system is languid, especially during the process of digestion—if you have a constant uneasy feeling in the stomach—why, you have only a fit of "INDIGESTION," and these great Bitters are made to cure Indigestion and they will do it too with all its attendant ills, and whilst it first gently stimulates the Stomach, cleansing and removing these troublesome agents,

IT ACTS UPON THE SKIN,

Removing morbid or vitiated humors, beautifying the face, kindling life and energy in your entire frame, then Reader, will the world no longer look dark and gloomy, no longer will your dearest hopes be banished and thrust aside, but with

Health and Strength

You will go forth into the world to say with thousands of others, "A. Richards' Abbott Bitters have done wonders for me."

The genuine have C. A. Richards' signature, and are sold every where.

BOUNTY LANDS.

IMPORTNT NOTICE TO

SOLDIERS, SEAMEN,

AND THEIR

Widows and Minor Children.

A BILL has passed both Houses of Congress, granting Bounty Lands to the following classes of persons, viz:

One hundred and sixty acres to all who have SERVED FOURTEEN DAYS IN ANY WAR of the United States, provided they have not received land.

One hundred and twenty acres to all who have so served and have received 40 acres.

Eighty acres to all who have so served and have received 80 acres.

And if the soldier has deceased without obtaining 160 acres, the same allowance as above is made to his Widow, or if no Widow, to his Minor Children.

Service in the Revolution—in the War of 1812—and in all the Indian Wars, is provided for by said Act.

And all who served the above period in the drafted Militia of the State of Maine in the year 1839, in what is known as the

AROOSTOOK WAR,

Are entitled to its benefits. Also the Militia called out, by State Authority, and who served the above period, and whose services have been paid for by the United States, and their Widows, and Minor Children.

The subscriber is prepared to receive and prosecute all claims arising under said Act, with promptness and dispatch, and upon as reasonable terms as other Agents.

He has many Military Rolls and Copies in his possession and especially very full ones of the Militia drafted for the Aroostook service in 1839.

As inducements to commit claims to his charge, he ventures to rely upon his long and well known experience and success in those of a similar nature.

He will, if preferred, Purchase the Land Warrants at fair rates.

Application may be made to him at his Office, or if requested by letter, he will send to claimants Declarations, with suitable directions which may be executed without the parties leaving their homes.

To secure the receipt of a Warrant early apply early.

To Holders of

LAND WARRANTS!!

John L. Hodsdon,

DOW'S BLOCK, Hammond Street, Bangor, would call the attention of those who may have LAND WARRANTS to sell, to the fact that he has orders for large numbers of Land Warrants from parties in the West, who authorize him to pay for the same the highest market value in CASH. Any person having a Warrant may therefore feel assured that he can obtain from Mr. H. the most favorable price for it.

To those who desire to

Locate their Warrants,

he would further say that he has skilled and careful agents in the States of

WISCONSIN

AND IOWA,

and in the Territory of Minnesota, who will locate any Warrants on the most desirable lands without advance pay.

Let all holders of Bounty Land Claims call on JOHN L. HODSDON,

Securing Patents for Inventions.

AGENCY FOR BUSINESS WITH THE U S PATENT OFFICE WASHINGTON

R. H. EDDY,

No. 76 State Street, opposite Kilby St.,

BOSTON

IMPORTANT INFORMATION TO INVENTORS.—The subscriber (late Agent of the U S Patent Office under the Act of 1837) determined to present advantages in applying for patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty as paid back by others) will be remitted by him in case of failure to obtain a patent, and the withdrawal, through him, within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works and full accounts of patents granted in the United States and Europe render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions and infringement of patents. All necessity of a journey to Washington to procure a patent ... great delay there are ... saved ...

Copies of the claims of any patent furnished for one dollar. Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the highest respectability.

R. H. EDDY, Solicitor of Patents.

TESTIMONIALS

During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office ... I ... were few, if any, persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

Republican Caucus.

The Republicans of Bangor are requested to assemble at the City Hall on THURSDAY evening, March 6th, at 7 o'clock to nominate a candidate for Mayor, and a candidate for Judge of the Police Court, also to meet at the usual places of voting in their respective Wards on SATURDAY evening, March 8th, to nominate candidates for Ward Officers.

Per order Republican City Committee.
March 4, 1856.

Republican Caucus.

The Republicans of Bangor are invited by their City Committee to meet in general caucus, at the City Hall, on this evening, for the purpose of nominating a candidate for Mayor, a candidate for Police Judge, and also for the organization of the Republican party by the choice of a City Committee for the coming year. It is hoped that there will be a large attendance, and that the nominations will be made with deliberation and with reference to all the interests of the city and its citizens. It is most fortunate that there are no personal aspirants in the Republican party, seeking for place, or having personal interests or ambition to gratify. All seem to be animated with the patriotic purpose of selecting men for their entire fitness to discharge with honor the public duties of the stations to which they are to be called—men free from popular prejudices, and who will bring with them the confidence of the community. This is the right spirit. This is the spirit and purpose of the Republican party, whether in the city, in the State, or in the nation.

This is the Presidential year, in which the true Republicans of the country are to act together, for the first time, in the election of a President, and to shape the political course of the country. It is felt, therefore, to be important to omit no occasion for bringing out and organizing the Republican strength. The first great point to be gained is the election of such men to the city government as will promote most effectually all the public interests of the city, and at the same time watch with jealous care, the interests of the people, so that what the public require, shall cost the least possible to the citizens. Efficiency and economy need to be combined with the greatest wisdom and discretion. No public enterprises are to be encouraged which shall make any unnecessary draft upon the pockets of the people, from whence, alone, all the city expenditures must be paid. It fortunately happens that all that is now required is to keep up the efficiency of the municipal government with the least expense, and to lessen every expenditure to the closest necessity. If the city had a large revenue, public enterprises might be safely projected, but as there is no revenue except that derivable from taxation, the absolute necessities of the occasion must be the rule of action. This is fully understood and determined upon by the Republican party, which is now about to come into power, for the first time in our city.

The city administration for the last year, whatever may have been its merits or its demerits, was not a political party administration, but a citizen's administration, so nominated and so elected. We make no issue for or against that administration, but all things considered, the Republican party prefers, this year, to place the municipal election on party grounds, believing that in this way greater good can be effected and greater responsibility secured than in any other mode.

The Republican City Committee have notified Ward Caucuses to be held on Saturday evening, for the purpose of nominating Ward officers. This arrangement will doubtless cause a large proportion of the next city council to be new men. Of this no member of the present City Council can complain, but can cordially unite in the election of the nominees, without feeling that his claims however faithfully he may have acted have been overlooked. We trust that the widest margin will be allowed in all the candidates—that all interests will be regarded, and that the nominations will be satisfactory, and their election made sure.

The manufacturing business promises to be quite profitable during the year, and handsome dividends are anticipated. A favorable impulse in this direction will extend also to those land and water power companies intimately connected with that interest. Essex, Hadley Falls and Lewiston stocks, which are now selling at very low prices, must of necessity participate in the improving prospects of the manufacturing business.

On Saturday evening, a train of cars on the Vermont and Massachusetts Railroad run over and instantly killed a man and woman, who were walking on the track between Ashburnham and Fitchburg. The accident occurred in a deep cut of snow, and the unfortunate persons were unable to escape at the sides of the track. Their names were not ascertained.

REPUDIATES IT.—The Newark (N. J.) Daily Mercury, was the first paper to run up the "American" Banner in New Jersey, and it is the first to repudiate—as derogatory to the character of the Organization, and unworthy of the issues of the day—the Dough-Face Ticket just nominated at Philadelphia by the "Hindoos." It will meet with the same fate from four-fifths of the Americans at the North.

The British mail for Canada, by the America, was delivered in Montreal, over the Grand Trunk Railway, on Sunday Evening at 7 o'clock, while the Letters and Papers for Portland and the East, did not arrive at Portland until Tuesday morning. This was effected by an arrangement which brought the mails upon the Broad Gauge.

The free evening schools of Lowell, Mass., have been largely attended the past winter.—About eleven hundred persons attended the school, and about fifty teachers were engaged in the noble work of dispensing the treasures of knowledge.

STULTIFICATION.—The conductors of the Bangor Journal have great capacity in advocating all sides of the various questions of politics and policy as they arise. In its issue of yesterday morning, it discoursed at some length, upon the subject of the municipal election. In some of its sentences, it berated, in its peculiar Sanbornian style, the present city government as wanting in capacity and in honesty, and intimated rather strongly that the gentlemen composing it were not possessed of money enough to be entrusted with the responsibilities of their position. This mode of discussion was calculated for a well known meridian, from which the Journal claims the special right to gather its illumination, and bring it to a focal point of burning intensity.

In other sentences the Journal betrays no little concern, and indeed absolute anxiety, to have the Republicans insist, at all hazards, and however much it may be against the personal wishes of the incumbent, that the present Mayor be re-nominated. It claims for him the right of a re-nomination, from general usage in such cases, and it appears exceedingly sorrowful that this matter is not insisted upon. The Journal "plays on a harp of a thousand strings," and is therefore often discordant with itself, and makes sorry music for the public ear.

The Journal may rest assured that the Republicans of Bangor will make nominations satisfactory to themselves, and nominate men who will probably allow the nominations to stand, and those nominations will be ratified by the people at the polls. We do not feel, in reference to the approaching election, any necessity or obligation to defend or laud the character or the action of the present city government. Our views have been often and explicitly expressed. Our only desire now is, that the right men may be elected on Monday next, and that this will be the result we have great confidence.

The following card appeared in the Bangor Journal yesterday morning. Col. Mills was nominated at a citizen's caucus on Saturday evening last, but that caucus was understood to be under the direction of the leaders of the fusion elements of the Pierce democracy and those straight whigs who now affect to see no causes of difference with this party. It is supposed that certain internal troubles among the leaders have precipitated this result.

Declination of W. H. Mills, Esq.

Messrs. Editors: My name having been used in connection with the Mayoralty at the coming election, allow me through your paper to decline being a candidate.

OUTRAGEOUS ASSAULT.—Last evening about dark, as Mr. Michael Schwartz was quietly unhitching his horse in front of his store on Exchange st., he was assaulted by two drunken Irishmen, who were accompanied by a woman, one of whom attempted to stab him with a knife. There was not the slightest reason for the assault, as they were all unknown to Mr. S. and no notice had been taken of them by him. They were carrying a jug of rum which they had just dropped and broken. Officer Emerson furnished them accommodation at the watch-house.

OFFICERS OF THE YOUNG MEN'S BIBLE SOCIETY.—The following officers of the Y. M. B. S. have been chosen for the current year:

President—Francis M. Sabine.
Vice President—John T. K. Hayward.
Secretary—A. S. Weed.
Treasurer and Depositary—E. F. Duren.
Executive Committee—John S. Kimball, L. L. Hawes, John Conant, C. T. Bean, D. Warren, F. F. French, J. Fenno, H. W. Whitney, and E. H. Fogg.

The annual examination of the Public Schools closed yesterday with the Girls' High School. The schools have generally appeared well, and more than usual attention has been paid to the repairs and general appearance of the school rooms. The committee, teachers, pupils, and the public appear to have paid more than usual attention to the examinations throughout, and to have been well prepared to make the occasion interesting. It is a matter of rejoicing that so much attention is bestowed here upon the education of children and youth of our city.

The military and civic Ball on Tuesday evening passed off very acceptably, and the dancing was somewhat prolonged. The dresses were brilliant and the music fine, the supper excellent. Some of the finest boquets were furnished from the *Green House* of Albert Noyes, Esq.

The traveling now is very heavy throughout the State, on account of the quantity of snow and the blocking of the roads by the frequent high winds driving the snow.

A WOMAN SWIMMING THE MISSISSIPPI.—Lloyd's forthcoming Steamboat Directory gives a thrilling instance for the necessity of women knowing how to swim. When the ill-fated Ben Sherrod was in flames on the Mississippi river, and the lady passengers had thrown themselves into the water, and were drowning around the boat, the wife of Captain Castleman jumped into the river, with her infant in her arms, and swam ashore a distance of half a mile, being the only woman saved out of sixteen. She had learned to swim when a girl.

PUTNAM'S MAGAZINE for March, DICKENS' HOUSEHOLD WORDS, for March, and THE SCHOOLFELLOW for March, have been received from Fetridge & Co., Boston Agents, and are for sale in Bangor by O. R. Patch, West Market Square.

The Boston Journal of Monday last says that on Saturday night, snow fell to the depth of two or three inches, very heavy and wet. Sunday forenoon, it rained pretty steadily, and the snow was well soaked.

Hon. Levi Cutter, one of the venerable and highly respected citizens of Portland, died in that city, on Sunday last, in his 82nd year. He was, for some years, Mayor of that city, and filled other public stations, and had a State wide reputation as a worthy, useful and Christian man.

Boys' High School Examination.

A large and discriminating audience consisting of the parents and friends of the pupils of the High School for Boys under the charge of Mr. Deane and Miss Chase, Assistant, were collected Tuesday afternoon at the School room in order to witness the Annual Examination.

For reasons which we have neither time nor disposition to discuss, the Boys' High School has been shamefully neglected for a series of years past. Parents and friends have not known perhaps how much an occasional visit to the School encourages and stimulates a son or young friend, but now, public attention having been attracted to the School by certain unpleasant occurrences at the first of the year, if we may judge by Tuesday's show a new era in the history of this School has been ushered in.

The exercises consisted of recitations in the Ancient and Modern Languages, Geometry, Algebra, and governmental Instruction, interspersed with declamations. Comparisons are always invidious, but we must say that a class in Latin in the Bangor High School never acquitted itself better than the class in Sallust did on this occasion.

The young gentlemen also displayed a promptness and readiness in the solution of Mathematical and Geometrical problems alike honorable to themselves and creditable to the instruction which they had received during the year.

The "Esprit du corps" without which all such examinations are a bore, was not wanting on the part of either teacher or pupil.

The Exercises proper were concluded by remarks from Mr. Wakefield of the Committee, Hon. John Appleton and Jacob McGaw, Esq., of the audience, complimenting the School on account of its good fortune in such teachers, and congratulating the Teachers on being placed over such diligent and well disposed scholars, after which was in order.

The awarding of Prizes by Mayor Hayward, who after a few prefatory remarks, read the letter announcing the award of the Committee which was appointed to designate the prizes for excellence in declamation on Friday Evening last, viz:

1st prize, to John F. Appleton: A splendidly bound copy of Shakespeare.

2d prize to J. Frank Godfrey. A copy of Goodrich's British Eloquence.

3d prize to Sidney W. Thaxter, Sparks' Life of Washington.

To each of the remaining seven performers a copy of the Life and Correspondence of Amos Lawrence, was presented.

One of the pupils, William L. Pitcher, very happily thanked the Mayor on behalf of the School, for the care and interest which he had manifested in the School during his official year.

Altogether the occasion was one of satisfaction to all concerned, and those interested who were prevented from attending may rest assured that Mr. Deane the Principal, and Miss Chase his Assistant, are every way competent instructors and have the respect and affection of the pupils.

ALUMNUS.

SAFETY OF RAILWAY TRAVELLING.—At a recent meeting of the British Railway Club, which is composed of the representatives of the principal English railways, Mr. Edward C. Watkin, the General Manager of one of the most extensive lines, presided, and made a speech which was received with great attention. He said those present represented £300,000,000, employed more than 90,000 men, and administered a revenue of £20,000,000 annually. In regard to the safety of railway travelling, Mr. Watkin furnished some novel statistics. He said that he had often thought that if a person wanted to be in the safest place in the world, he should get into the first class railway carriage, and never leave it. In 1854, the English railways carried 111,000,000; the number killed, in consequence of accidents beyond their control was 12. Those 111,000,000 travelled about 15 miles each, so that it is clear a man must make between 10 and 11 journeys, travelling between 150,000,000 and 160,000,000 miles—and that would take, he calculated, between 2000 and 3000 years—before a fatal accident might be expected to happen to him. Now, he challenged comparison, in point of safety, between railway traveling, or any other avocation. Two-thirds of the accidents occur from moral causes, and not from physical ones, as the breaking of an axle, or some defect in the permanent way.

THE SILK STOCKING STORY.—Hon. Mr. Galloway, in his address at Jefferson Hall on Friday evening last, placed the Jeffersonian democracy of our friend of the Gazette in a winnowing mill, and after a little shaking it was found to be all chaff and no grain. "Had I the power to bring up Jefferson from the grave (said the Speaker) and exhibit the editor of the Gazette to him, he would say *I know not the man.*" He illustrated the resemblance by a silk stocking story. There was a prudent bachelor who owned but one pair of silk stockings which were kept for special dress occasions only. Every Sunday morning he would open his chamber door and slowly say—"Sister Martha will you hand me my silk stockings?"—They always came, as Sunday after Sunday, for year after year he continued the call—"Sister Martha, will you hand me my silk stockings?"—In process of time, however, the watchful sister found a rent here which she mended with linen—and at another time a rent there, which was mended with cotton—then another, which was filled with worsted—thus going round and round, till at last not a thread of the original material was left—but still as Sunday morning came, he would as regularly call—"Sister Martha will you hand me my silk stockings?"—*Portsmouth Jour.*

SELECTIONS FOR A NEWSPAPER.—Most people think that the selection of matter for a newspaper is the easiest part of the business. How great an error! It is by all means the most difficult. To look over and over hundreds of exchange papers every week from which to select enough for one, especially when the question is not what shall not be selected, is no easy task. If every person who reads a paper could have edited it we should hear less complaint. To an editor who has the least care about what he selects, the writing he has to do is the easiest part of the labor. Every subscriber thinks the paper printed for his own benefit; and if there is nothing in it that suits him, the paper must be stopped, it is good for nothing. Just as many subscribers as an editor may have so many tastes has he to consult. One likes anecdotes, fun and frolic; the next door neighbor wonders that a man of good sense will put such stuff in a paper. Something spicy comes out and the editor is a blackguard. Next comes something argumentative, and the editor is a dull fool. And so between them all you see the poor fellow gets roundly handled. They never think that what does not please them may please the next man; but they insist, if the paper does not please them it is good for nothing.

LEGISLATURE OF MAINE.

SATURDAY, March 1.

SENATE. A letter was received from George M. Atwood, accepting the office of Adjutant General.

On motion of Mr. Farley,

Ordered, That a Joint Select Committee be appointed, consisting of three on the part of the Senate, with such as the House may join, whose duty it shall be to inquire into the expediency of recinding certain Resolves relating to Slavery, approved March 17, 1855; and that the resolves relating to Kansas now on the table of the Senate, be referred to the same committee.

Passed to be enacted—An act authorizing 1st school district of Bucksport to accept a bequest made by Joseph Folsom.

SATURDAY, March 1.

HOUSE. Mr. Irish of Union introduced the following order.

That the Committee on the Judiciary to which was referred the bill regulating and restricting the manufacture and sale of intoxicating liquors be directed to report the same to the House without amendment; pending whose consideration, a call of the House was had, and disclosed the absence of a quorum.

MONDAY, March 3.

SENATE. On motion of Mr. Jones,

Ordered, That the Committee on the Judiciary be instructed to inquire into the expediency of restricting the powers of County Commissioners in respect to laying out roads over unincorporated places.

Passed to be engrossed—An act in relation to the election of Judges of Probate, Registers of Probate and Municipal Judges; an act in relation to the disclosure of poor debtors.

MONDAY, March 3.

HOUSE. On motion of Mr. Hume of Robbinston, the Committee on the Judiciary was directed to inquire into the expediency of passing a law authorizing Judges of Municipal and Justices' Courts to summon to said Courts three, five or seven jurymen whenever either of the parties interested require it to be done in any civil case, to be heard and tried before said judge or justice and jurors.

Petitions presented and referred—J. W. Cushing and als., asking for incorporation; remonstrance of T. C. Talpey and als., and Geo. M. Mills and als., against setting off certain islands from Brooksville to Castine.

The Boston Journal speaks of the money market as follows;

Discounts have been obtained in the street at comparatively easy rates for a week or ten days past, and capital is quite abundant on paper of undoubted character. The minimum is placed at 8 per cent. but there had been more demand for first class notes at this rate than for money, and the advantages of the market have been with borrowers. The easier condition of the New York market has attracted considerable applications from our large commission houses, who have branches established in that city, and State street has experienced the benefit of these drafts on New York capital very materially.—New York funds are abundant at par, and our specie reserves are quite likely to be strengthened, although not probably attended by any important extension of loans on the part of our banks.

A bag containing copper coin passed for $5000 in gold between some of the banks in Boston a few days since, and the error when detected was immediately corrected.

On looking at the twenty-four dimly burning tallow candles with which our young friends of the Express last evening illuminated their windows, a Hibernian said it reminded him of nothing so forcibly as of "an Irish wake;" although, he added, "the illumination is by no means as wake as the candidate."—*Albany Journal.*

A Cousin in Need.

A PRUSSIAN STORY.

[From Dickens' Household Words.]

(Concluded.)

The house was, however, at last gained, and, having delivered his missive to a servant, Heinrich awaited the result in the hall. In a few minutes the servant returned and requested him, in the most respectful manner, to follow him to the Marshal's presence. Arrived there, he was received most courteously; and the Marshal made many inquiries as to his past life and future prospects; requested to be told the name of the village or town in which he had been last residing; the school in which he had been educated; at what inn he was living in Berlin, and so forth. But still no allusion was made either to the note or the writer of it. The interview lasted about twenty minutes; at the end of which time the Marshal dismissed him, desiring that he would call again on that day fortnight.

Heinrich employed the interval in visiting the lions of the town. There was a grand review of the troops on the King's birth-day; and, like a loyal subject, our friend went to have a reverent stare at his Majesty, whom he had never seen. At one point of the review the King stopped almost opposite to Heinrich; and then was suggested to him, as the reader probably suspects, that, after all, he must have seen that face somewhere before. Was it the friend who hailed him in the muddy road? Impossible! How should a King be travelling at that time of the day? At any rate, it vexed him to think that he had not treated the gentleman in the coach in a very ceremonious manner. He had thrust tinder at his nose and cried to him, "Puff away."

At last the time appointed for his second visit to the Marshal arrived. His reception was again most favorable. The Marshal begged him to be seated at the table at which he was writing, and proceeded at the same time to business. Unlocking a drawer and bringing forth a small bundle of papers, he asked Heinrich, as he drew them forth, one by one, if he knew in whose handwriting the various superscriptions were?

Heinrich answered that, to the best of his belief, one was that of Herr Mudel, his former schoolmaster; another that of Doctor Von Hummer, the principal of such a college, and so on.

"Quite right," remarked the Marshal; "and perhaps it may not surprise you to hear that I have written to these different gentlemen to inquire your character, that I may know with whom I have to deal, and not be working in the dark." As he said these words the Marshal fixed his eyes on Heinrich to see what effect they had, but the young man's countenance was unabashed; he evidently feared no evil report. "I feel bound," continued the Marshal, "to tell you that all that they say of you is most favorable, and I am equally bound to believe and act upon their opinions. I have now to beg of you to follow me to a friend's house."

The Marshal descended a private staircase leading to the court-yard, crossing which he passed through a gate in the wall into a narrow side street, down which he conducted Heinrich, till they arrived at a private entrance to the palace. Heinrich began to get exceedingly nervous; the conviction that his idea was not a mere trick of the imagination became stronger and stronger. Could he have had his own wish, Heinrich Meyer would at that moment have been forty miles from Berlin. At last, as he found himself following Grumkow even into the palace, he could not refrain from exclaiming, "Indeed, Herr Marshal, there must be some mistake!"

No answer was vouchsafed as the Marshal continued to lead him through various galleries and apartments until at last they reached the door of one situated in a corner of a wing of the palace, where the Marshal's knock was answered by a short "come in." As the door opened, a glance sufficed to convince Heinrich that his friend in the mud and the King were one and the same person. The poor cousin-seeker, greatly confused, knelt before Frederick William and began faltering out contrite apologies.

"Rise, young man," said the King; "you have not committed treason. How on earth could you guess who I was? I should not travel quietly if I meant to be everywhere recognized."

After re-hearing Heinrich, the King told him that he was prepared to do what he could to push him forward in the profession he had chosen. "But first," he said, "I must hear you preach. On Sunday next, therefore, you shall preach before me; but mind I shall choose the text. You may retire."

By the time Heinrich Meyer reached his own room in the inn, he had fixed in his mind the fact that he was to preach to the King. The fact was only too clear, and all he could do was to set about his sermon as soon as he should have been furnished with the text. For the remainder of that day he never stirred out; every step on the stair was to his ears that of the bearer of the text.

Nevertheless, evening and night passed, and the next day was far advanced, but still no text. What was to be done? There was only two days before Sunday! He must go and consult the Marshal; but the latter could give him no further information. All he could do was to promise that, if the King sent the text through him, it should be forwarded with the utmost possible dispatch.

That day and the next passed, and yet Heinrich heard nothing from either King or Marshal. Only an official intimation had been sent, as was customary, that he had been selected as the preacher on the following Sunday at the Chapel Royal.

If it had not been that Heinrich knew himself to possess no mean powers of oratory, and that he could even extemporise in case of emergency, he would certainly have run away from Berlin and abjured his discovered cousin. As it was, he abided by the course of events, and fortified himself by prayer and philosophy for the momentous hour. Sunday morning arrived, but no text!

Heinrich went to the church appointed, and was conducted to the seat always set apart for the preacher of the day. The King with the royal family occupied their accustomed places. The service commenced, but no text. The prayers were ended, and, whilst the organ pealed forth its solemn sounds, the preacher was led to the pulpit. The congregation were astonished, not only at his youthfulness, but at his being an utter stranger.

The pulpit steps were gained, and the thought flashed across Heinrich's mind that possibly he should find the text placed for him on the desk. But, as he was on the point of mounting the stairs, an officer of the royal household delivered to him a folded piece of paper, saying, "His Majesty sends you the text."

After having recited the preliminary prayers the preacher opened the paper, and lo! it was blank; not a word was written on it. What was to be done? Heinrich deliberately examined the white sheet, and, after a short pause, held it up before the congregation, saying, "His Majesty has furnished the text for my sermon. But you may perceive that nothing whatever is upon this sheet of paper. 'Out of nothing God created the world.' I shall, therefore, take the creation for the subject of my discourse this morning."

In accordance with this decision the preacher went through the whole of the first chapter of Genesis in a masterly way, his style being forcible and clear, and his fluency of language remarkable. His audience, accustomed to the King's eccentricities, were far more astonished at the dexterity with which the preacher had extricated himself from the difficulty than at the dilemma in which he had been placed. At last the sermon was ended, the congregation dismissed, and Heinrich found himself in the sacristy receiving the congratulations of several dignitaries of the church, who all prophesied for him a brilliant future.

Heinrich ventured to express his amazement at the singular proceeding of the King, but was told that he could only have arrived recently from the provinces if he did not know that such vagaries were quite common to his Majesty. In the midst of the conversation a messenger arrived to conduct him to the royal presence. Being totally unaware what impression his sermon might have had upon the King, the cousin-seeker rather dreaded the approaching audience. But Heinrich had scarcely crossed the threshold of the King's room when his Majesty jumped up and thrust a roll of paper into the young preacher's hand, exclaiming, "Hurra, sir, puff away; take this for the light you gave me!"

Then, throwing himself back in a chair, he laughed heartily at the young preacher's look of surprise and confusion. The latter scarcely knew what reply to make or what to do, but just as he had got as far as "your Majesty" the King interrupted him, saying, "Make no fine speeches; go home quietly and examine the contents of the paper. You came to Berlin to seek a cousin; you have found one who, if you go on steadily, will not neglect you."

It is hardly necessary to add that the roll of paper contained a good appointment at the University of Berlin, and made Heinrich Meyer one of the royal preachers.

WASHINGTON, Mar

SENATE. Mr. Butler reported a bill
appropriations for fortifications and other
of defence and for repairs of barrac
quarters.

The bill establishing the collection
in the U. S. passed.

After debate the Senate confirmed M
man Trumbull in his seat for six years fr
fourth of March last, by the following
ayes, Adams, Allen, Bell, Bright, Brown

Mr. Butler defended Mr. Atchison fro
charges of his interference in the affairs of
sas.

Mr. Toucey took similar ground.

Mr. Hale replied, and drew a sketch of
New England politicians who seemed to
that the curse originally pronounced upon

Mr. Toucey having used the words mear

Mr. Wilson took exception to some of

Carried.

HOUSE. Mr. Stephens from the Comm
on Elections, presented a minority report w
sets forth that Mr. Reeder's sole object in
application seems to be to devolve upon
Committee and the House an inquiry into
validity of the territorial law under which
Whitefield was elected, and that ranges on
ground that the members of the Legislat
who passed that law, were not themselves pr
erly elected and returned. It is to estab
this, that Mr. Reeder wishes to send for p
sons and papers, making the House not on
the judges of the qualifications and return
its own members, but also of the members
the territorial legislature, and which of cour
follows of the State legislature. This wou
be assuming a position not properly pertain
to the House, and establish a precedent of
dangerous tendency. Finally if the House co
cluded that the examination should be made, t
end would be better attained by sending Com
missioners to Kansas to take such testimony
may be pertinent and competent, wher
sending for persons and papers would occasi
much delay and inconvenience, even if it c
not prove impracticable.

Accompanying the report is a paper from M
Whitefield, who submits that Mr. Reeder h
no right to be heard, as he was not a can
date when Mr. W. was elected, nor was he
candidate at any election authorized by law.
The testimony proposed to be taken is n
competent to prove the truth of Mr. Reeder
statement. Mr. Reeder was Governor wh
the members of the Legislature were chose
and the election was concluded by Judges ap
pointed by Mr. Reeder, who took the prescribe
oath to reject the votes of non-residents. Th
members of the Kansas legislature took the
seats without cavil or complaint from Governo
Reeder, who commissioned these very member
by whom was passed the law under whic
Whitefield was elected. The pretext of Gov
Reeder is, that the members of the Legislatur
were illegally elected, which stops him in view
of the facts stated, from further proceedings.—
The report is signed by Messrs. Oliver of Mo.
Stephens of Ga., and Smith of Ala. The fur
ther consideration of the subject was postpone
till to-morrow.

The House then went into committee of the
whole.

Mr. Grow rose and assailed the President's
special message in regard to Kansas maintain
ing that the people had a right to call a Con
vention and frame a State Constitution. He
earnestly condemned the effort to extend slav
ery over free territory.

Mr. Cadwallader argued that legislation un
der the Constitution had always been to make
a mutually beneficial partition of territory be
tween the North and South, and to leave to the
people the moulding of their own domestic in
stitutions. He defended the Kansas Nebraska
Act.

The committee then rose and the House ad
journed.

The R. M. Screw Steamer Canadian for Liverpool sailed from this port to-day. She took out 56 passengers and no specie.

Democratic Convention.

HARRISBURG, March 5.

To-day the Democratic Convention adopted a series of resolutions by acclamation, which in substance are as follows: Strongly for the Union; deprecating the agitation of Slavery; endorsing the Kanzas Nebraska Act, and the repeal of the Missouri Compromise, and denouncing free-soilism and Know Nothingism. The Convention then voted for a Canal Commissioner, but no one was chosen on the first ballot. On the second ballot George Scott of Columbia was nominated. Jacob Fry was nominated for Auditor General, on the first ballot.

Failure of C. M. Clay.

The Louisville Courier says that Cassius M. Clay has failed. He has been a heavy speculator in hogs, and the recent heavy decline caused his financial ruin.

Coffee firmer. Java 14½ 14¾.

Sugars firm and active. New Orleans 8¾; Muscovado 7¾ a 8½; Havana 8½ a 8¾.

Molasses firm. New Orleans 43 a 45. Muscovado 36.

NO BOSTON MAIL. We are again without a mail from any point west of Portland. The Boston train had not reached Portland when the afternoon train left for Waterville. At 7 o'clock last evening the cars on the Somerset and Kennebec road had not arrived at Waterville, thus delaying our mail from Augusta one day. The train on the Penobscot and Kennebec road arrived here at a few minutes past 9, having waited in Waterville for the western cars. We understand that the snow yesterday blew in so hard that the A. & K. road was drifted nearly as bad as at any previous time this season.

FIRE IN SEBEC. A correspondent writing from Sebec, under date of March 4th, says:—The woolen factory in this town was destroyed by fire last night, and all its contents, including about $4000 worth of flannels, wool, dye-stuffs, and goods partly manufactured. It was caused by fire being accidentally communicated to a lot of wool that was picked and oiled, and it spread with such rapidity that nothing could be saved. There was an insurance of $2000 on the stock, but none on the mill, or machinery. It was owned by the Sebec Manufacturing Co., by whom it was built in 1846. It was operated by Mr. Edward Robinson, whose loss is heavy, and it will be a serious blow to the business of our village. C.

REPUBLICAN TRIUMPH. We learn from the Portland Advertiser that the election for Representative from the New Gloucester and Raymond district, last Monday, resulted in the election of James M. Leach, the Republican candidate, by SEVENTY-EIGHT majority. Last September Mr. Leach had one majority, but the Legislature declared that there was no choice.

FIRE. The alarm of fire last evening was occasioned by the burning of an unoccupied wooden building known as the Reed house, on Centre street, near the railroad crossing. Loss not great. Owned by Capt. William R. Reed, of Frankfort.

Bronchitis, Coughs, Hoarseness.

BROWN'S BRONCHIAL TROCHES, or Cough Lozenges, are made from a highly esteemed recipe for the alleviation of Bronchial affections, Coughs, Hoarseness, Asthma, Irritation of the Throat, either chronic or occasioned by cold or unusual exertion of the vocal organs in speaking or singing. Clergymen, Vocalists, Lawyers, and all PUBLIC SPEAKERS, will find them an admirable substitute for water in soothing the bronchial tubes, clearing the voice, and a valuable and efficient remedy. Containing no opium, they can be used as freely as requisite. The recipe for the Troches was originally in the possession of a clergyman who had used them with success for a Bronchial affection attended with a severe cough—they were recommended to others, who were benefited by the use of them, and now can be obtained of Druggists generally throughout the United States.

Messrs. John I. Brown & Son: Gentlemen—My knowledge of the manner in which the various articles of the Materia Medica were combined by you to form the "Bronchial Troches," led me, three or four years since, to adopt their use. The results have been such as to induce me to continue the practice, believing them of great benefit in many affections of the Bronchial organs, Asthma, Coughs, &c. Yours, etc., J. W. P. LANE, M.D.

Crystalotype Portraits.

DAGUERREOTYPES can be accurately copied by the new Photographic process, enlarged to any required size, and beautifully colored in Oil, Water, or Pastel. Portraits are obtained from the life by this process, requiring no longer sitting than for a common daguerreotype, thus avoiding the serious inconvenience and fatigue of long sittings. Glass daguerreotypes, a new article of unsurpassed richness and durability, are now for the first time in Bangor, offered to the public. Their great brilliancy and permanency render them peculiarly suitable for Pins, Rings, &c. The Public are invited to call and examine specimens at HARDY'S Portrait Gallery, Main-street, a short distance below the Bangor House.

Cheap & Convenient Building.

Door, Sash and Blind Factory.

A. DUNBAR

HAS been very successful in completing several contracts for Door Frames, Doors, Window Frames and Sashes, and Blinds, for good dwelling-houses and other buildings to be erected in this city, the coming season. He has excellent workmen in his employ, and has superior stock, so that he is now able to supply to those about to build the best articles of Door Frames, Window Frames, Sashes, and Blinds, made to any dimensions and of superior quality, either for a whole building or for a less quantity. The trouble and expense of building is very much lessened by having these articles made separately, so that the carpenters have only to put them in their place in the structure.

This business has now become so well systemized that only a small margin is left in knowing beforehand the cost of a dwelling-house, while the work is of a uniform excellent quality.

Any one interested can examine specimens of the work at the factory, near the Hose Place, or at the store of M. S. Jackson, on Exchange st., and at either place any article may be obtained or large quantities ordered.

Mr Dunbar is also prepared to furnish Window Blinds ready painted, and will hang them at the shortest notice.

By long experience, and by determined perseverance, the subscriber is now enabled to suit his customers, both in quality and price, and so well organized is the business that no man should now think of building in the old and slow and imperfect methods.

The Great European Cough Remedy.

Important to the Consumptive and the Public generally. The celebrated

Universal Cough Mixture

IS a safe and effectual Remedy for Coughs of every description whether of children or adults of recent or long standing.

PREPARED ONLY BY

REV. WALTER CLARK,

Sole Proprietor, Cornishville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing diseases of the Chest and Lungs is gratefully acknowledged, and especially in cases of obstinate and long standing Coughs, it speedily allays the unpleasant sensation in the throat which excites coughing, it promotes free and easy expectoration, and by removing the exciting cause of the cough it frequently enables the sufferers to enjoy natural and refreshing sleep, which for weeks had been deprived of that blessing.

Sold in trial bottles, 25 cents each; large bottles, each containing the quantity of four small ones, 75 cents each.

Extract of a letter from Daniel Adams Esq., of Bowdoinham, Maine.

February 1853

The Rev Walter Clark — Dear Sir — The bottle of Cough Mixture which I bought of you has had the desired effect on my wife. She had been afflicted with a cough for two years — that bottle entirely removed it.

From Rev Jesse Hoyt, Lewiston Falls.

Rev Mr Clark — Every bottle of the Universal Cough Mixture which you left with me is sold — and I have several applications for more. As far as heard from all have been perfectly satisfied with the medicine. One man, who had a cough of long standing attended with tightness of the chest and shortness of breath, so that he was laid aside from business, [illegible] a large bottle, and before he had taken one third of it was perfectly cured, and has had no sign [illegible] the best medicine in the world, and cannot [illegible] highly.

JESSE HAYLS

From Mr Fletcher Chick, agent for North Dixmont, Maine.

Dear Sir — A number of the most extraordinary cures have been effected by your Universal Cough Mixture in this place. Several who have coughs of a year's standing, and others who have been doctored six months without receiving any benefit have been speedily cured by the Universal Cough Mixture.

From Mrs Hubbard, Thorndike, Me.

February 1 1854

To Rev Walter Clark — Dear Sir — This certifies that I have used one bottle of your Universal Cough Mixture for a distressing cough and soreness in the lungs. I had previously taken several kinds of medicine and had been under the care of several physicians without obtaining the least relief. [illegible] your Universal Cough Mixture was recommended to me [illegible] I procured a bottle, which I began to take according to directions in the use of, by which in a few days I was entirely cured.

Fisk's Patent Metallic BURIAL CASES!

THESE CASES are extensively used and possess valuable advantages over all other Coffins for transportation, Depositing in Vaults, or for ordinary Interments. They are made of the most Imperishable Materials, also enamelled inside and out, to prevent rust or corrosion, and when properly cemented we have the gratifying reflection that the bodies of our deceased loved ones enclosed in them are *free from eruption of Water or Depredations of Vermin*, and may, without offensive odor, be kept, obviating the necessity of hasty burial, or if desired transported to a distant land. The remains of the late

Hon. Henry Clay, Daniel Webster, and many other distinguished persons are entombed in receptacles of this kind.

PHYSIOLOGY OF MARRIAGE, by an Old Physician, at A. [illegible], 2 Harlow Block.

LET US REASON TOGETHER

HOLLOWAY'S PILLS.

WHY ARE WE SICK?

IT has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes and constitutions. Professor Holloway personally superintends the manufacture of his medicines in the United States, and offers them to a free and enlightened people as the best remedy the world ever saw for the removal of disease.

These Pills Purify the Blood.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

Dyspepsia & Liver Complaint.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to these organs, however much deranged, and when all other means have failed.

General Debility. Ill Health.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

Female Complaints.

No Female, young or old should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint — consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:

Asthma	Dropsy	Inward Weakness
Bowel Complaints	Debility	Lowness of Spirits
Coughs	Fever and Ague	Piles
Colds	Female Complaints	Stone and Gravel
Chest Diseases	Headache	Secondary Symptoms
Costiveness	Indigestion	
Dyspepsia	Influenza	Venereal Affections
Diarrhoea	Inflammation	Worms of all kinds

Sold at the Manufactories of Professor HOLLOWAY, 80 Maiden Lane, New York, and 244 Strand, London, and by all respectable Druggists and Dealers of Medicines throughout the United States, and the civilized world, in boxes, at 25 cts, 62½ cents and $1 each.

KENNEDY'S MEDICAL DISCOVERY.

The Greatest of the Age!

MR KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt rheum.

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as, that a common weed growing upon the pastures, and along old stone walls, should cure every humor in the system, yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands about it, suiting some cases but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen puny looking children whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature it will cause very singular feelings, but you must not be alarmed — they always disappear in from four days to a week. There is never a bad result from it — on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get and enough of it.

ROXBURY, Sept 19, 1853

This is to certify that H H HAY, Druggist, Portland, is the duly AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory.

Dr. C M JACKSON, Philad'a, Pa.,

WILL EFFECTUALLY CURE

Liver Complaint, Dyspepsia, Jaundice,

Chronic or Nervous Debility, Diseases of the Kidneys, and all diseases arising from a disordered Liver or Stomach.

Such as Constipation, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing, Fluttering at the Heart, Choaking or Suffocating Sensations when in a lying posture, Dimness of Vision, Dots or Webs before the Sight, Fever and Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c.

Sudden Flushes of Heat Burning in the Flesh, Constant Imaginings of Evil, and great Depression of Spirits.

The proprietor, in calling the attention of the public to this preparation does so with a feeling of the utmost confidence in its virtues and adaptation to the diseases for which it is recommended.

It is no new and untried article but one that has stood the test of a ten years' trial before the American people, and its reputation and sale is unrivalled by any similar preparations extant. The testimony in its favor given by the most prominent and well known Physicians and individuals, in all parts of the country is immense. The following from your own State is respectfully submitted referring any who may still doubt, to my "Memorabilia," or Practical Receipt Book for Farmers and Families, to be had gratis of all the Agents for the German Bitters.

Principal office and manufactory, 120 Arch-st., Philadelphia, Pa.

TESTIMONY FROM MAINE

Capt Daniel Abbott, Brooklin, Maine, July 16, 1853, says "I was taken sick one year ago last April, upon my passage from Havana to Charleston, S C. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite. At last taking up a newspaper having your advertisement of Hoofland's German Bitters in it, I sent for some immediately. This was about 10 o'clock, at 11 o'clock I took the first dose, and another at 6 o'clock. The effect was so rapid on me that I had a good appetite for supper, and rested well that night, and the next day found me a well man — I have not been without your medicine since, having been sailing between Baltimore, Charleston, and the West India Islands ever since. I have now given up going to sea and reside in this place, where you should have an agency, as you could sell large quantities of it."

Jos. B. Hall & Co., Presque Isle, Aroostook Co., Maine, April 24, 1854, say "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters. We think Mr Clark to be a man of verity, and have no doubt of the truth of his story."

Messrs Jos. B Hall & Co — Gentlemen — In answer to your inquiries I will state that my daughter, aged about 16 years has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From reading a number of cures performed by Hoofland's German Bitters, I was induced to try them in her case, and sent to your store and purchased *one bottle*. She had taken it but a few days when she began to improve, and now, after taking *only one* bottle, she is enjoying better health than she has for years — She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters. WILLIAM CLARK.

Salmon Brook, Aroostook Co., Me.

You should bear in mind that these Bitters are *entirely vegetable*, thereby possessing advantages over most of the preparations recommended for similar diseases.

A MARVELLOUS REMEDY For a Marvellous Age!

HOLLOWAY'S OINTMENT!!

The Grand External Remedy.

By the aid of a microscope we see millions of little openings on the surface of our bodies — Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys, Disorders of the Liver, affections of the Heart, inflammation of the Lungs, Asthmas, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes through bone or meat of any thickness — This healing Ointment far more readily penetrates through any bone or fleshy part of the living body curing the most dangerous inward complaints, that cannot be reached by other means.

Erysipelas, Salt Rheum, and Scorbutic Humors.

No remedy has ever done so much for the cure of diseases of the Skin, whatever form they may assume, as this Ointment. No case of Salt Rheum, Scurvy, Sore Head, Scrofula, or Erysipelas, can long withstand its influence. The inventor has travelled over many parts of the globe visiting the principal hospitals, dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

Sore Legs, Sore Breasts, Wounds and Ulcers.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumors. Professor Holloway has, by command of the Allied Governments, despatched to the hospitals of the East, large shipments of this Ointment to be used under the direction of the Medical Staff, in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of 20 years standing.

Piles and Fistulas.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Piles	Sprains
Burns,	Rheumatism	Scalds
Chapped Hands	Salt Rheum	Swelled Glands
Chilblains	Skin Diseases	Stiff Joints
Fistulas	Sore Legs	Ulcers
Gout	Sore Breasts	Venereal Sores
Lumbago	Sore Heads	Wounds of all kinds
Mercurial Eruptions	Sore Throats	
	Sores of all Kinds	

Sold at the Manufactories of Professor HOLLOWAY, 80 Maiden Lane, New York and 244 Strand, London, and by all respectable Druggists and Dealers of Medicines throughout the United States, and the civilized world, in Pots, at 25 cts, 62½ cents, and $1 each.

There is a considerable saving by taking the larger sizes.

HELMBOLD'S GENUINE PREPARATIONS.

HELMBOLD'S

HIGHLY CONCENTRATED

Compound Fluid Extract Buchu

IS A CERTAIN, SAFE, AND EFFECTUAL REMEDY

For Diseases of the Bladder, Kidneys, Gravel, Dropsy, Weakness, Secret Diseases, Obstructions, Female Complaints,

and all Diseases of the Sexual Organs, whether in

MALE OR FEMALE,

from whatever cause they may have originated, and

No Matter of How Long Standing.

This popular and specific remedy is now offered to the afflicted and guaranteed to cure all the above complaints. It searches out the very roots of the diseases, driving out all the diseased fluids of the body, thus removing the cause and rendering the cure

Certain and Permanent.

This medicine allays pain and inflammation which other remedies invariably cause, and can be taken with less trouble and expense to patients. This infallible remedy has saved thousands upon thousands from the hands of

Merciless Quacks,

if not from premature graves. In cases of infection the Compound Buchu is the only article worthy of the least confidence of the afflicted in performing

SAFE CURES

It contains no narcotic, mercury, or other injurious drug, but is a purely VEGETABLE COMPOSITION. It is very agreeable to the taste, creates no perceptible odor, and may be taken by persons of either sex without hindrance from business or medical advice, as plain directions for use accompany the medicine. Reader, if you have any of the above complaints, do not neglect them.

Delays are Dangerous.

With this medicine you can cure yourself, and thus prevent all exposure.

Truth must and will prevail.

This medicine speedily and effectually cures the most virulent form of secret diseases, and eradicates every particle of infectious matter from the patient to a perfect state of *Health and Purity* — And as a medicine which must benefit everybody, from the simply delicate to the confined and desparing invalid, no equal is to be found, it acting both as a *Cure and Preventive* of any of the above ailments.

HELMBOLD'S

HIGHLY CONCENTRATED

Compound Fluid Extract Sarsaparilla,

—FOR—

Purifying the Blood, removing all diseases arising from Excess of Mercury, exposure and imprudence in life, chronic constitutional disease arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, Scald head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples on the Face, and all scaly Eruptions of the Skin.

It is gratifying to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given to patient and practitioner the highest degree of satisfaction in the various cases in which they have been employed, whether in town, country, hospital, or private practice, they have invariably given the most decided and unequivocal satisfaction and produced the most salutary and beneficial effects. Numerous letters have been received from the most distinguished physicians in the country, and from the professors of several medical colleges, recommending in the highest terms the value of these medicines and their superiority over all other preparations for such complaints as the proprietor recommends. Numerous preparations of Sarsaparilla and Buchu, and various modes of preparing them have been given, all of which of course will differ according to the mode of preparation which each individual may adopt.

These medicines require considerable care in the preparation, and the employment of different menstrua in successive operation to take up the extractive matters, and, in consequence, are most frequently improperly made, and not unfrequently much impaired, if not rendered totally inert, by the injudicious and unskillful management of those unacquainted with pharmaceutical preparations. It is, therefore, of the highest consideration and importance to the public, and to the faculty, that there should be standard preparations of uniform strength and possessing the most advantages. To effect this, and obviate the evil alluded to, I have made a number of experiments to ascertain the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu, and to discover the most eligible form for their exhibition. The experiments have resulted most favorably, and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be made from in a highly concentrated form, and are the most active preparations which can be made. Two table spoonfulls of the Extract Sarsaparilla added to a pint of water is equal to the Lisbon diet drink, and one bottle fully equals in strength one gallon of Syrup Sarsaparilla or decoction, as usually made.

—PRICES—

Fluid Extract Buchu, $1 per bottle, or 6 for $5

The British Periodicals.

PREMIUMS

TO NEW SUBSCRIBERS

L SCOTT & CO, New York, continue to publish the following leading British Periodicals, viz:

1. THE LONDON QUARTERLY (Conservative)
2. THE EDINBURG REVIEW (Whig)
3. THE NORTH BRITISH REVIEW (Free Church)
4. THE WESTMINSTER REVIEW (Liberal)
5. BLACKWOOD'S EDINBURG MAGAZINE (Tory)

THE great and important events — Religious, Political and Military — now agitating the nations of the Old World give to these publications an interest and value they never before possessed. They occupy a middle ground between the hastily written news items, crude speculations, and flying rumors of the newspaper, and the ponderous Tome of the historian, written long after the living interest in the facts he records shall have passed away. The progress of the War in the East occupies a large space in their pages. Every movement is closely criticised whether of friend or foe, and all short comings fearlessly pointed out. The letters from the Crimea and the Baltic in Blackwood's Magazine, from two of its most popular contributors give a more intelligible and reliable account of the movements of the belligerents than can elsewhere be found.

These Periodicals ably represent the three great political parties of Great Britain — Whig, Tory, and Radical — but politics forms only one feature of their character. As Organs of the most profound writers on Science, Literature, Morality and Religion, they stand as they ever have stood, unrivalled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source.

EARLY COPIES

The receipt of Advance Sheets from the British publishers gives additional value to these Reprints, especially during the present existing state of European affairs, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.
